

## NuCrest, LLC Obtains GSA IT 70 Schedule contract

PRESS RELEASE — FOR IMMEDIATE RELEASE

NuCrest, LLC (NuCrest), a provider of Information Technology (IT) Enterprise Services and Solutions, announced today that the U.S. Government Services Administration (GSA) has awarded the company an IT Schedule 70 contract, # 47QTCA18D0075. NuCrest's 5-year GSA IT Schedule 70 contract (February 13, 2018 through February 12, 2023) covers delivery of a broad range of IT Professional Services and Training Courses & Development.

NuCrest has been approved to compete as a prime contractor for awards under Special Item Numbers (SINs) 132-50 and 132-51. Under SIN 132-50 NuCrest will provide a host of services to include: IT & Telecommunications Education/Training Course Development and Facilitation Services. Under 132-51 NuCrest will provide Information Technology Professional Services to include: program/project management, IT strategy, enterprise risk management, information security, information assurance, cloud security, business continuity (BC)/disaster recovery (DR), systems analysis and design, systems/security engineering, systems/security architecture, business analytics & reporting, content/record/knowledge/information management, independent verification & validation, release management/engineering, network management and operations, and other computer related services.

"While NuCrest currently serves as a subcontractor under other Federal contracts, award of the GSA IT 70 Schedule will allow the NuCrest to considerably broaden its competitive reach and pursue opportunities as an eventual Prime contractor across Government agencies that purchase services through this schedule. We are excited to have been selected as a GSA IT Schedule 70 contractor," said Jabari Morgan, SVP, NuCrest, LLC.

"This award marks a significant milestone for our company. NuCrest has focused on expanding our capabilities and services in the past year, as well as our ability to reach federal clients as a prime contractor." -- Michael Adams, President/CEO, NuCrest, LLC.
